AI Recommendation
Ribeye is trending toward a stockout before Saturday service — reorder suggested.
Review inventory

 Owner dashboard: net sales, tax, gross and net profit, margins, revenue and payment mix

 Kitchen Display: live tickets, the ingredients each order consumes, and portions left

 AI Smart Import: a menu PDF becomes 6 new items in 5 categories, each linked to its recipe, ready to approve

 Menu management: price, availability, linked recipe and food cost % per dish

 Customer menu: categories, deals that show the saving, notes, promo codes and tax before checkout

 Tables & QR codes: every table gets its own QR code (blurred here)

 Order tracking: placed → in the kitchen → ready → served, plus order more

 Guest feedback: overall rating plus food, service, speed, cleanliness and ambiance

 Customer menu assistant: recommends dishes and calculates real deal savings

 Website AI Guide: explains the product and walks owners through setup

 P&L report: a branded PDF of sales, food cost, expenses and net profit

Financial Profit & Expenses Report

Period: Last 30 Days (1 Month)

Generated: 9/30/2026, 6:10:53 AM
