Automation Restaurant — Wastage management

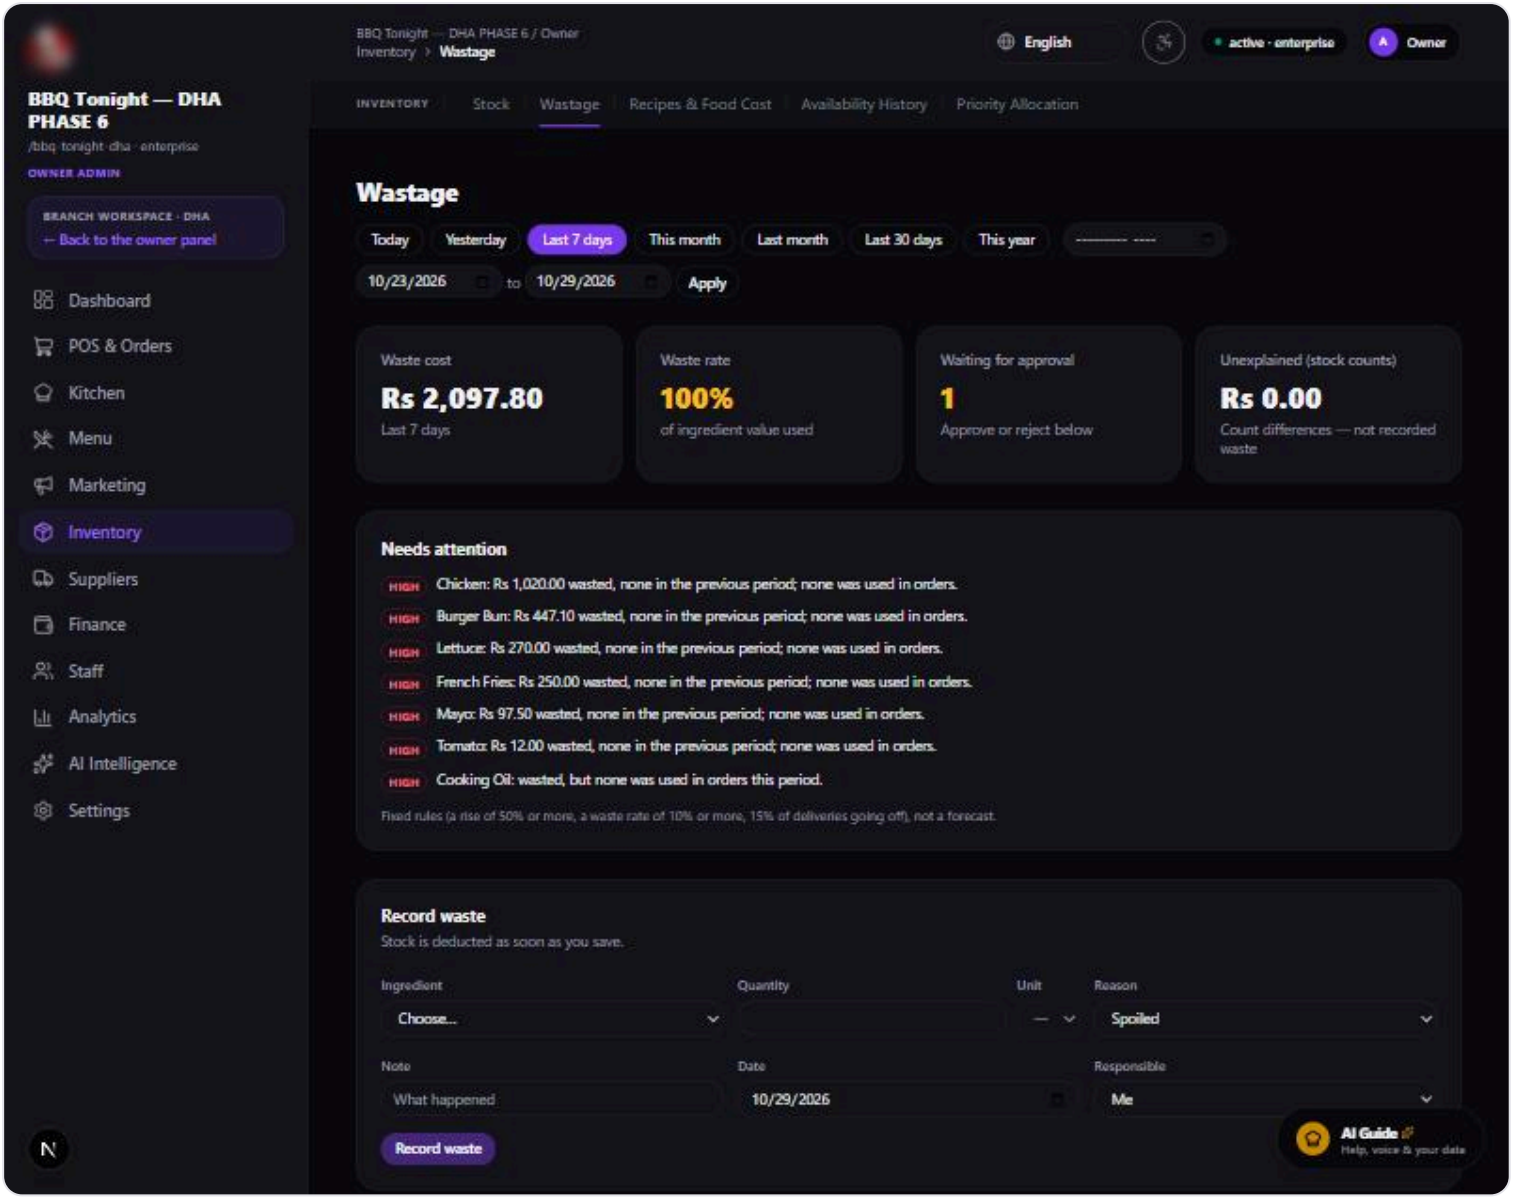

Recording waste with a reason, approvals for kitchen entries, reversals, waste cost and rate, trends, breakdowns by ingredient and reason, expiry estimates and the AI Guide — shown with sample data in the DHA branch (notes end in "(sample)"). Logo, staff names and emails are blurred.

Status	Entries	Effect
Approved	8	Stock deducted once, Rs 2,097.80 to Finance as waste
Reversed	1 (beef)	Stock put back, cost taken off Finance
Rejected	1 (chicken)	Nothing changes
Waiting for approval	1 (cheese)	Stock changes only when a manager approves

Generated 2026-10-29

1 / 6 Dashboard

Last 7 days in the DHA branch (sample data): Rs 2,097.80 wasted, one entry waiting for approval, one alert line per ingredient. Waste rate is 100% because the branch sold nothing that week.

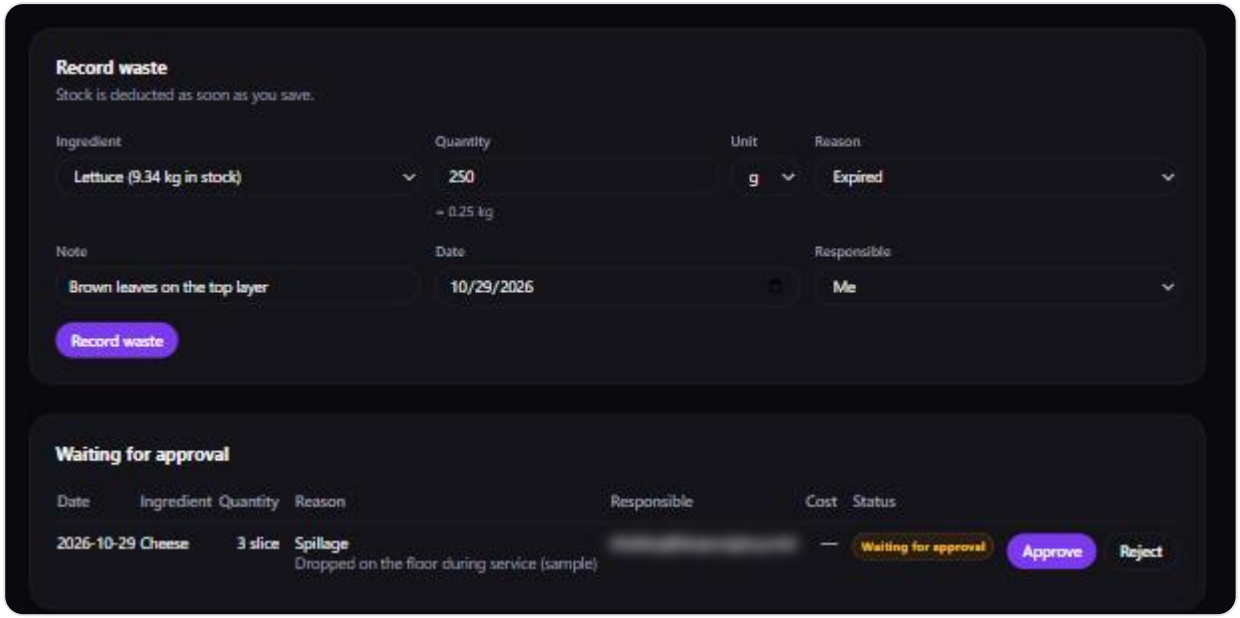

2 / 6 Trend, day by day

Each entry sits on the day the waste happened: 23 Oct Rs 270, 24 Oct Rs 680, 25 Oct Rs 447.10, 26 Oct Rs 250, 27 Oct Rs 1.20 (the reversed beef nets to zero), 28 Oct Rs 12, 29 Oct Rs 437.50.

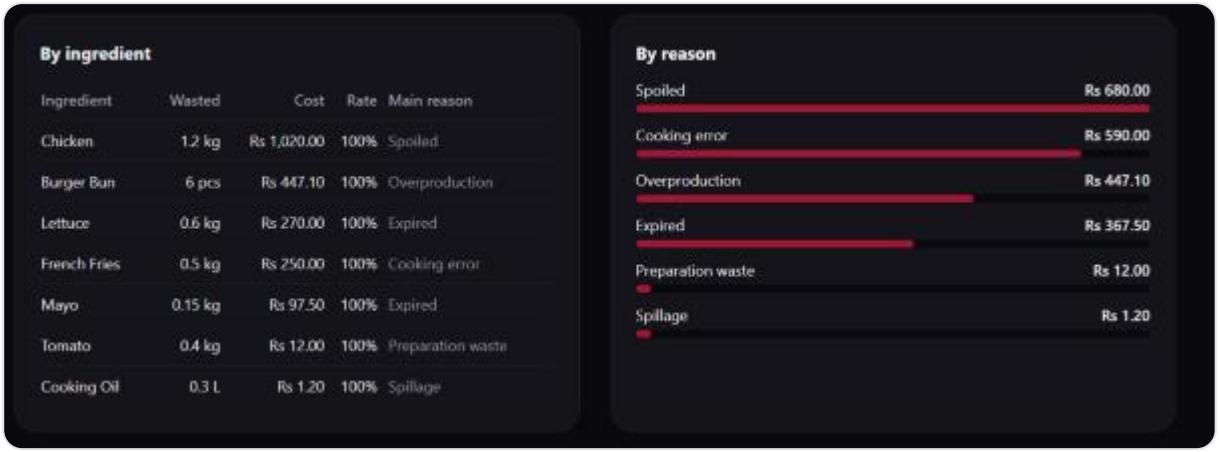

3 / 6 Recording waste and approvals

250 g of Lettuce (stocked in kg) is converted on the spot to 0.25 kg. A kitchen entry (3 cheese slices) waits for a manager to approve or reject it; stock changes only on approval.

4 / 6 Where the money went

By ingredient: Chicken Rs 1,020 (1.2 kg), Burger Bun Rs 447.10, Lettuce Rs 270 … By reason: Spoiled Rs 680, Cooking error Rs 590, Overproduction Rs 447.10, Expired Rs 367.50.

By ingredient

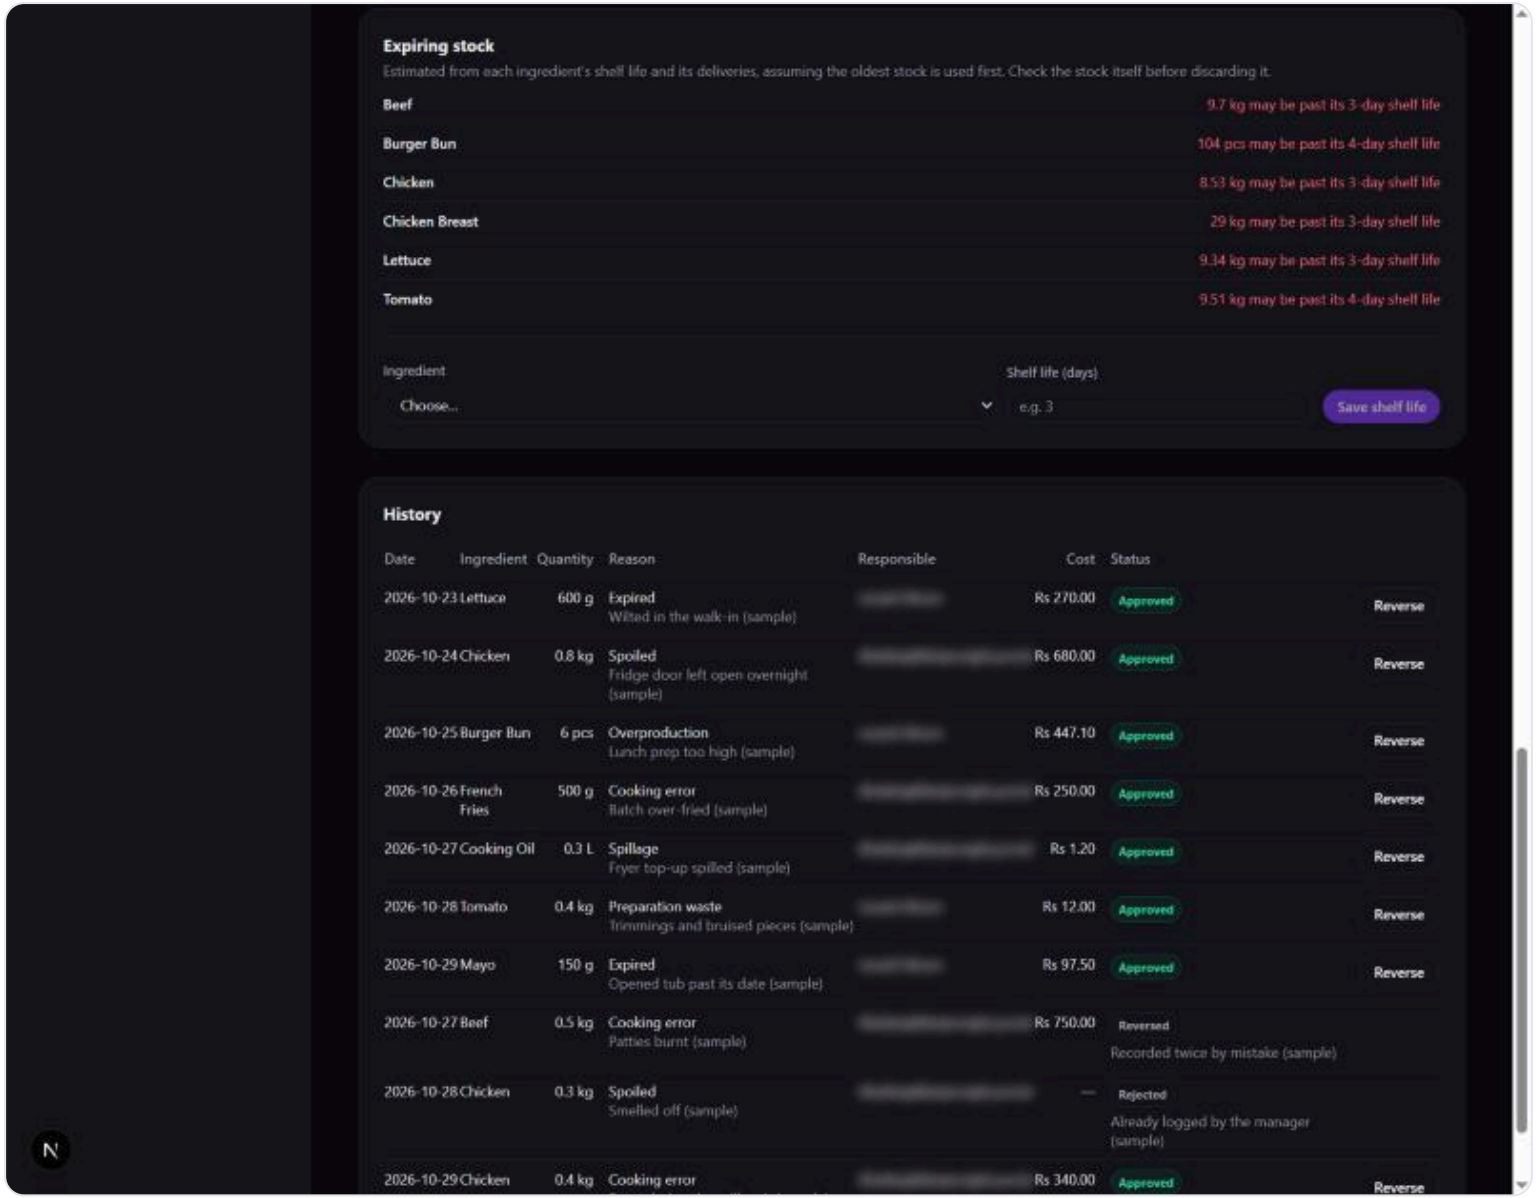

Ingredient	Wasted	Cost	Rate	Main reason
Chicken	1.2 kg	Rs 1,020.00	100%	Spoiled
Burger Bun	6 pcs	Rs 447.10	100%	Overproduction
Lettuce	0.6 kg	Rs 270.00	100%	Expired
French Fries	0.5 kg	Rs 250.00	100%	Cooking error
Mayo	0.15 kg	Rs 97.50	100%	Expired
Tomato	0.4 kg	Rs 12.00	100%	Preparation waste
Cooking Oil	0.3 L	Rs 1.20	100%	Spillage

By reason

Spoiled	Rs 680.00
Cooking error	Rs 590.00
Overproduction	Rs 447.10
Expired	Rs 367.50
Preparation waste	Rs 12.00
Spillage	Rs 1.20

5 / 6 Expiring stock and history

Stock older than its shelf life is flagged (an estimate, oldest stock used first). History keeps every entry: reason, note, who was responsible, cost and status — approved, reversed or rejected.

6 / 6 AI Guide on the same data

"How much stock did we waste in the last 7 days, and which 3 ingredients cost the most?" — Rs 2,097.80; Chicken Rs 1,020, Burger Bun Rs 447.10, Lettuce Rs 270: the same figures as the screen, read from the database.
